

TAKE A RIKSHA-TOUR

**HAVE A SECOND
LOOK AT BASEL**

HAVE A SECOND

Would you like to see more than Basel's museums and its humanistic past?

On a second look, Basel reveals many unexpected and little known things – all of them intriguing. Join us in a most unusual RIKSHA city tour to learn about the

Rhine pollution catastrophe at Schweizerhalle
Shelter for the homeless
Worker self managed coop Restaurant Hirscheneck
Soup kitchen; needle and injection room for drug addicts
Youth revolt for more autonomy at the old Stadtgärtnerei
General strike of 1919
Unemployed self managed Cybercafé Planet 13
Basel alternative currency and where it can be spent

The Riksha drivers are also your guides. Their muscle power gets you to new places. Their brain power to new insights.

The one hour tour is in Small Basel (Kleinbasel): From the Lindenberg to the Claraplatz, Klybeckstrasse, down to the Rhine boardwalks and from there back to the starting point.

For you to continue this discovery tour on your own, you will receive 30 BNB (30 CHF worth of Basel's alternative currency). With it you can enjoy products and services offered by the Social Economy Network: good meals, a massage to relax, gifts for your loved ones. All from businesses that care about an ecologically and socially sustainable world.

The tour will last about one hour

Tour Fee

CHF 180.00 (for 1 or 2 people),
which includes 30 BNB (BonNetzBon)

Meet the Riksha driver here at
the agreed time:

Lindenberg 23 (in front of Restaurant Hirscheneck)

Bringing about a sustainable society - socially and ecologically.

We help develop a sustainable region, using also alternative local money called BNB (BonNetzBon). This money stays in town. It does not flow into the speculative and globalised markets that often treat nature and people in a reckless manner. The Social Economy Association of Basel was founded in the crisis years of the 1990s by small worker self managed enterprises, self help initiatives of the unemployed, and by various civil society organisations and individuals promoting a society that is socially and ecologically sustainable.
